

TAMP ON OR TAMP BLOW APPLICATOR FOR PRE-PRINTED LABELS

LA 1014 is a high performance applicator that combines the speed with the accuracy of the label positioning.

These features are obtained by means of a mechanism powered by two microprocessor driven stepping motors. With this configuration it is possible to maintain constant the web tension without any mechanical regulation. There are no clutches to calibrate or to maintain.

The microprocessor electronic calibrates automatically the

fotosensor for an easy label size changement.

The unwinder accomodates 76mm core label rolls with an external diameter up to 305 mm)and a web width up to 120 mm.

The dispensing speed is adjustable up to 40 m/min by means of a keyboard.

The LA 1014 is very compact and the reduced thickness of only 245 mm allows an easy the integration in tight spaces. There are no

external boxes, cables, consoles that complicate the installation and take extra room.

The external interface provides alarm and sincronization signals, so no other external devices are necessary.

Thanks to the "intelligent" drive of the stepping motors the power requirement are limited to not more than 120W at full speed.

LA 1014

Tamp-on and tamp blow applicator for preprinted labels

TECHNICAL SPECIFICATIONS

LABEL DIMENSIONS:	min 20 x 20 mm, max 120 x 170 mm
APPLICATION RATE:	up to 60 labels/minute – Label size and Stroke length depending
ROLL DIAMETER:	up to 300 mm
ACCURACY:	+/- 1 mm
DISPLAY:	Back lit dot matrix LCD, 2 lines of 16 characters and two LEDs
CONTROLS:	3 keys allow the guided programming of the functions and the parameters of the applicator
DIMENSIONS (l x h x w):	approx. 700 x 600 x 245 mm
WEIGHT:	approx. 30 kg
POWER SUPPLY:	85-264 VAC, 42-440 Hz, 120W max
ENVIRONEMENT:	temperature from 5 to 35 °C, relative humidity from 20 to 90% (not condensing)
INTERFACE:	synchronization, alarm and product sensing signals

OPTIONS AND ACCESSORIES

P/N 121.000 LH	LEFT HAND APPLICATOR
P/N 121.000 RH	RIGHT HAND APPLICATOR
P/N 121.151	500 mm STROKE KIT
P/N 121.152	VARIABLE STROKE KIT
P/N 121.153	SWING TAMP KIT
P/N 121.158	EXCHANGABLE TAMP KIT
